MISSIONSPARKS

Add the Moment button to your home screen

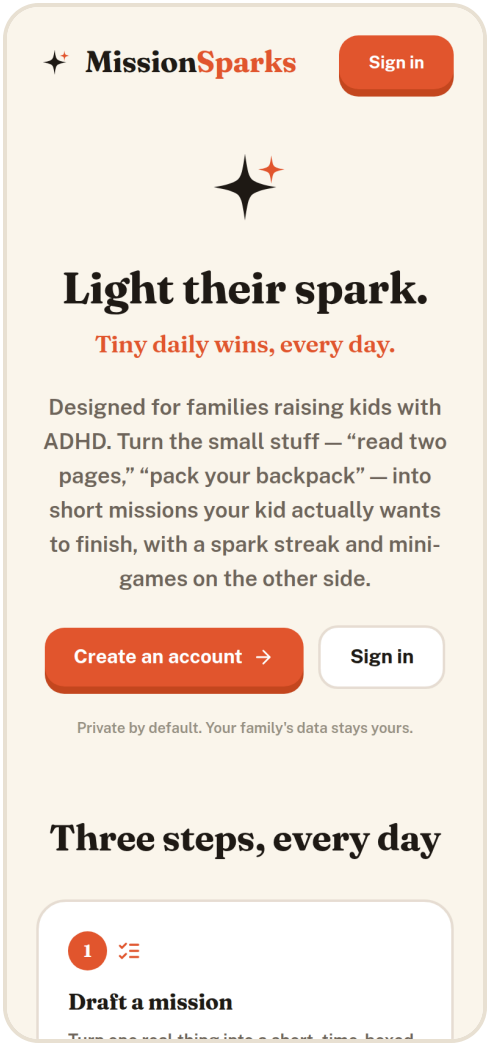

The **Moment** screen (Quick Log) lets you mark a moment **Positive** or **Negative** in one tap. Add MissionSparks to your phone's home screen and it opens like an app — straight to that screen, no typing a web address.

*This is the Moment screen. Tap **Positive** or **Negative** — one tap and it's logged.*

Good to know

One tap, nothing else. The icon opens directly to the Moment screen.

It remembers you. Once you're signed in, you won't need to sign in again.

Rename it (iPhone). Before tapping "Add," tap the name field to change what it's called.
